

This medical innovation from Harloff was designed through significant feedback from the GI community based on their need to dry dilators in the same manner of endoscopes, especially for dilators that use a wire guide inner lumen.

Balloon dilator holder available for one or both sides of the cart

- Positive pressure fan system dries the full Savary-Gilliard® dilators, and other wire guided dilators, as well as Bougie, Hurst and Maloney dilators
- Available in Short (up to 28" long dilators) and Tall (up to 39" long dilators) cabinets
- Capacities of 24 or 36 dilators
- Allows a single dilator cart to service multiple procedure rooms.
- Includes pull out slides that each hold six dilators for easy access to similar sized dilators at one time
- Replaceable HEPA Filter removes 99.7% of particulates, .03 Microns
- Fan run time (from 10 to 180 minutes) is fully adjustable and activated each time the dilator storage cart is closed

Achieve the same drying capabilities of an endoscope drying cabinet for your Savary-Gilliard® & Bougie dilators!

Vertically hang 24 or 36 dilators for exterior drying and storage. Short cabinets can hold dilators up to 28" long while tall cabinets can hold dilators up to 39" in length.

ALL DILATOR CARTS AVAILABLE WITH OR WITHOUT A DRYING PACKAGE

- Positive pressure fan system dries Bougie dilators, Savary-Gilliard® dilators & other wire guided dilators
- Includes pull out slides that each hold six dilators for easy access to similar sized dilators at one time
- Fan run time (from 10-180 minutes) is fully adjustable and activated each time the cabinet door is closed
- Replaceable HEPA Filter removes 99.7% of particulates, .03 Microns
- Durable, scratch resistant heat sealed powder coat finish
- Each dilator storage cart can hold up to 24 or 36 individual dilators, varying in size from 5mm (15 French) to 20mm (60 French) and up to 28" in length
- Choice of lock options: keyless, latch lock, standard key lock or standard electronic lock

Engineered & Manufactured in the U.S.

DSC24TK-DP

holds up to 24 dilators 39" in length

DSC24SK-DP

holds up to 24 dilators 28" in length

- This high volume cabinet is recommended for facilities and clinics with a large quantity of dilators, typically more than 20, as it can store up to 36 Bougie or Savary-Gilliard® dilators.

DSC36SK-DP

holds up to 36 dilators 28" in length

DSC36TK-DP

holds up to 36 dilators 39" in length
